

KALLAS

INC

INDUSTRY

www.kallasinc.com

IN KALLAS INC.,
WE VALUE YOU

In the Greek and International food market since 1967

The company **KALLAS INCORPORATION S.A.** is active in the import and distribution of raw materials and food in three main sectors: in the **Food Industry**, providing raw materials for cheese, dairy, confectionery, bakery, biscuits, ice cream, chocolate, pasties, meat, etc., in **Supermarket Chains** with branded and private label products, as well as supplying the best materials to the **Food Service / Ho.Re.Ca industry**.

Our vision

Our vision is to stand responsibly and respectfully towards the modern needs of our partners, offering value-added products and services, fulfilling our role as a strong, reliable and socially responsible company that is constantly evolving at an international level.

THE VALUE OF
A GOOD IDEA
LIES IN ITS
IMPLEMENTATION!

STRONG
PARTNERSHIPS

Our values

Our partners are at the heart of our values. The relationship with our partners is the cornerstone of our activity. We create strong professional relationships based on honesty, ethos, mutual respect and effective cooperation, in order to gain their trust every day.

EXCELLENT QUALITY

The foundation of our operation

For us, product safety and quality is a non-negotiable value for each item we distribute. We implement certified food quality and safety management systems based on international standards and sampling controls on imported and distributed products, like **HACCP, the Food Hygiene and Safety System**.

We have won international certifications from important bodies, in terms of food management and safety (**Food Safety Management System ISO 22000:2005** and **Quality Management System ISO 9001:2015**), marketing and distribution of organic products, as well as the distribution of RAINFOREST ALLIANCE/UTZ and **RSPO** products.

As far as storage and handling are concerned, we strictly adhere to modern **FEFO** (First Expire / First Out) and **FIFO** (First In / First Out) handling systems, 24-hour real-time monitoring of all refrigeration facilities to avoid errors and a great emphasis on traceability.

RESEARCH & DEVELOPMENT

Your need is our inspiration!

CUSTOMIZED
SUPPORT

RECOGNIZED
EXPERTISE

Our lengthy experience combined with our expertise in the field of raw materials and food makes us a reliable consultant in the research and development of innovative products.

A comprehensive team of food specialists and technologists from Kallas Inc., in collaboration with the technical departments of our suppliers, is dedicated to offering meaningful solutions, contributing effectively to the development of our partners' ideas.

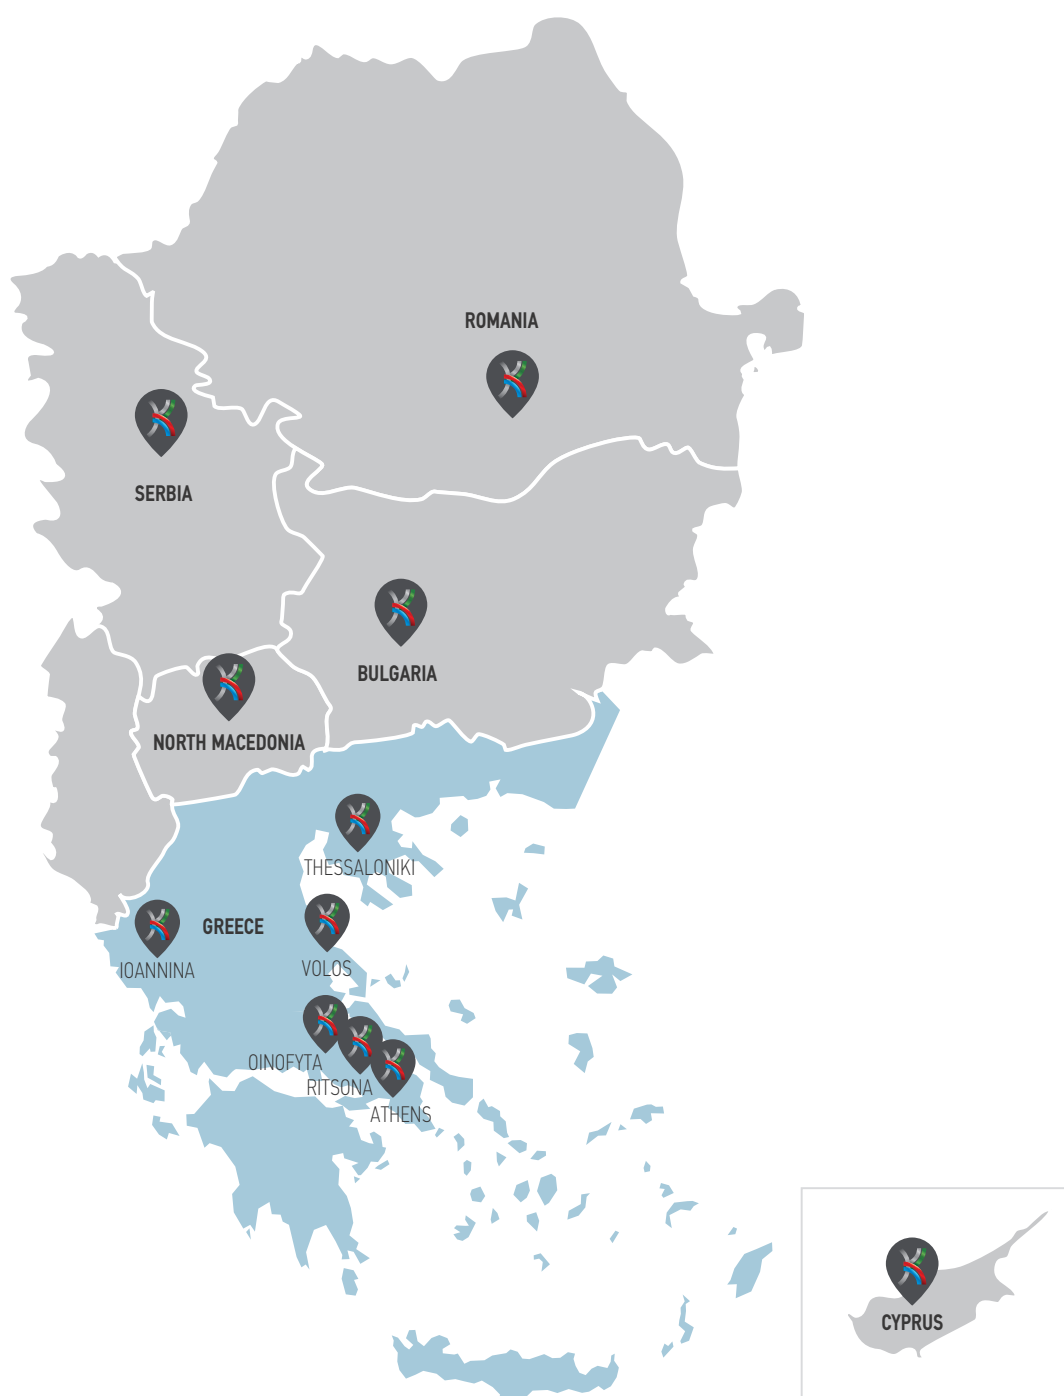

Daily, prompt, same-day delivery!

In our desire to meet the needs of the country, we have set the bar very high for our partners and have created privately owned branches and modern distribution centers throughout Greece.

More specifically, we have established modern facilities in **Acharnes, Attica**, in the industrial area of **Thessaloniki**, in the industrial area of **Volos**, in **Vathy, Avlida**, and in **Ioannina**, with more than **27,000 sq.m.** of total temperature-controlled storage space.

Our last investment in **Oinofyta** is the spearhead of the company that came to add an extra **13,000 sq.m.** of deep-freeze storage space (16,000 pallets), the largest in the Balkan region!

Selective partnerships

The company maintains exclusive, stable and selective partnerships with the most well-known and trusted food companies worldwide. Thanks to its long presence in the Greek market, the company has a wide range of products and, consequently, a large number of customers from leading companies in the food industry.
